OBJECTIVE

Computer Science undergraduate with a strong focus on problem-solving and logical thinking, experienced in designing efficient solutions, handling data effectively, and building reliable system workflows. Comfortable breaking down complex tasks, identifying patterns, and implementing practical solutions, supported by a foundational understanding of data analysis concepts.

PROFESSIONAL EXPERIENCE

Voyagex.ai  , Software Development Intern 03/2026 – Present | Gurugram / India

- **Optimized data handling workflows using Dart**, improving overall system performance by **~12%**
- **Enhanced dataset efficiency by ~10%** through effective data transformation and standardization
- **Designed and standardized structured datasets** for better readability and maintainability
- **Managed end-to-end data transformation workflows** across multiple application layers
- **Developed and optimized responsive UI using Flutter**, ensuring seamless performance across **mobile and desktop devices**
- **Identified and resolved data integration issues**, improving system reliability
- **Collaborated with cross-functional teams** to enhance application workflows and features
- **Utilized Git for version control**, following structured development and collaboration practices

EDUCATION

Bachelor of Technology in CSE,
Sanjeev Agrawal Global Educational University
7.68 CGPA

09/2023 – 05/2026 | BHOPAL, MP

TECHNICAL SKILLS

Programming Languages C, Python ,JavaScript (ES6+) , Dart	Backend Node.js, Express.js, REST API Development Core Concepts Object-Oriented Programming (OOP), Problem Solving.	Frontend React, Redux, HTML5, CSS3, Tailwind CSS, Responsive Design, GSAP ScrollTrigger, Flutter UI/UX Design Figma – Wireframing, Prototyping, Responsive UI Design.	Version Control Systems & Platforms Git, GitHub, Vercel, Postman Professional Skills Communication, Problem Solving, Analytical Thinking, Team Collaboration, Adaptability, Ownership, Client Handling
---	--	--	---

CERTIFICATES

- Figma to Webflow 
- Java 
- FullStack Web 

PROJECTS

Chatty – Real-Time Web Application

Built a real-time chat application using **React.js**, **Node.js**, and **WebSockets**, focusing on efficient data handling and seamless communication. Managed user data for messaging, groups, and notifications while ensuring accuracy and consistency. Implemented authentication and session management using **JWT**, and designed a responsive interface with **Tailwind CSS** to improve usability and accessibility.

AI Fitness Assistant

Developed an AI-powered fitness assistant using **Next.js 15 (React 19)**, **Convex**, and **Vapi AI**, enabling real-time voice-based interaction for personalized workout and diet plans. Implemented secure authentication and session management with **Clerk**, and managed real-time data updates using Convex's reactive database. Designed a modern, responsive UI with **Tailwind CSS** and **Radix UI**, focusing on performance, accessibility, and smooth user experience.
